Subject: Weekly Report of Partnerships, Land Revitalization & Cleanup Branch for the Week of 12/23/2016

Highlights of Past Week

Hunters Point Naval Shipyard Superfund site, San Francisco, California - Enrique Manzanilla (EPA Region 9 Superfund Division Director) and the site team met with concerned community members and Greenaction to discuss their list of demands in an October 2016 letter to the agencies. Grant Cope, Deputy Secretary of California Environmental Protection Agency, and Mohsen Grant, the Deputy Director for Cleanup and Brownfields for California Department of Toxic Substances Control also attended by phone. The main concern was the Navy's investigation of Tetra Tech's falsification of radiation samples and the credibility of related cleanup at this site and nationwide. EPA shared a recent letter sent to Navy management with recommendations for technical evaluation and community engagement. Greenaction plans to review and send their comments to us.
